

GOLDEN GATE 2 + GOLDEN GATE 2 WMN

33085/351 & 352

PRODUCT POSITIONING

From door to trail, the Golden Gate 2 is the ideal choice for those looking for a versatile shoe that is comfortable on paved surfaces, but also performs on park paths, gravel roads and groomed trails. The highly cushion midsole absorbs impacts on pavement, while still feeling stable on more uneven terrain. The Presa® outsole delivers traction both on and off road, inspiring confidence as you expand your running horizons.

Medium/high density EVA for support and thrust response

Bounce Foam low density midsole for shock-absorption and rebound

Rubber outsole with SuperGum compound, excellent grip and durability on mixed terrain

Vertical grooves for cushioning and controlled compression

FEATURES AND BENEFITS

- 01** **Upper:** Bio based printed reinforcement adds light-weight structure and support to upper.
- 02** **Sock-Fit LW:** Stretch fabric incorporated with minimal stretch tongue providing gentle wrapping and support, reducing bulk and enhancing fit.
- 03** **EXO Construction:** Provides enhanced mid-foot support
- 04** **Midsole:** Dual density Bounce Foam with structure and rebound zones for more elastic response.
- 05** **Outsole:** PRESA® outsole with SuperGum rubber for traction on and off road.

SPECIFICATIONS

Upper: Mesh / Bio Print / Microfiber
 Lining: Stretch Textile
 Insole: Strobel
 Midsole: CM-EVA Bounce Foam
 Outsole: PRESA® TRN-07 / SuperGum
 Last: (M) ATR2
 (W) ATR2W
 Sizes: (M) 40-47 (½ sizes), 48 (whole sizes)
 (W) 36-43 (½ sizes)
 Weight: (M) 265g; 9.3oz (½ pair, size 42)
 (W) 215g; 7.6oz (½ pair, size 38)
 Origin: Vietnam

TECHNOLOGY · MATERIALS · CONSTRUCTION

PRESA® Outsole – PRESA® is SCARPA's proprietary outsole brand, born out of 80+ years of technical outsole design experience, to deliver the best traction solutions available. The outsole is molded in our exclusive SuperGum Eco rubber, with 3mm deep lugs designed with specific inclinations and angles to provide optimal traction, propulsion and braking, and features lateral grooves in the forefoot to enhance sole flex. The medial forefoot area features an edging zone, providing more rubber to surface contact under the big toe.

SuperGum Rubber – Exclusive to SCARPA, the SuperGum rubber compound was developed to provide equal or better slip resistance as compared to other high-friction rubbers but with vastly superior abrasion resistance. It was formulated to deliver high friction performance in both wet and dry conditions, but at the same time offers 3 times the abrasion resistance. SuperGum is the ideal rubber compound for SCARPA trail running shoes.

EXO Construction – Highly breathable upper mesh is backed by our EXO internal support matrix, inspired by structural elements of the Golden Gate bridge. Welded PU reinforcements on the upper add additional structure, support and abrasion resistance.

Bounce Foam – a new generation of super-critical EVA midsole foams, our Bounce Foam is expanded with CO₂ to form a lighter and more resilient midsole foam, which both shaves weight and also adds rebound, resilience and better resistance to compression set.

SCARPA Planet Friendly – Our products tread the most wonderful and unspoiled landscapes on earth. We feel we must do our best to preserve these landscapes. "Planet Friendly", products made of environment-friendly materials refer to products in which materials and processes are specifically chosen for their environmentally friendly characteristics.

SOCK-FITLW
BY SCARPA

Sock-Fit LW System – Sock-Fit LW, or "Light Wrap" construction, is the most minimal version of Sock-fit that SCARPA offers. Most of our Trail Running models incorporate this innovative construction. The Sock-Fit LW system uses a stretch material combined with a minimal, stretch tongue that wraps both sides and the top of the instep, eliminating the tradition gusset construction, providing gentle pressure and support to both reduce bulk and enhance the fit of the shoe.

FIT:
ATR2 / ATR2W last. Medium width heel pocket and mid-foot with a slightly roomier toe-box for high mileage comfort.
