

# RIBELLE® CROSS 2 + RIBELLE® CROSS 2 WMN

63136/351 & 352

## PRODUCT POSITIONING

Experience the best of both worlds with the Ribelle Cross 2. This innovative hiking shoe blends the lightweight agility and responsive feel of a running shoe with the essential protection and confident traction of a hiker. Move swiftly and nimbly on the trail without sacrificing underfoot stability or grip on varied terrain. It's the perfect fusion for fast and light adventures.

### FEATURES AND BENEFITS

- 01** **Upper:** Breathable upper fabric to keep feet cool with TPU overlays providing structure and stability.
- 02** **Rand:** Full perimeter rand for upper protection.
- 03** **DST Frame:** Dynamic Stabilizer Torsion frame gives rear-foot stability and torsion control.
- 04** **Midsole:** Compression molded EVA for lightweight cushioning and responsiveness
- 05** **Outsole:** PRESA® outsole works with the midsole to provide mechanical impact absorption, and our SuperGum rubber compound provides confidence-inspiring traction.

### SPECIFICATIONS

Upper: Mesh + TPU Film  
 Lining: Eco Stretch Fabric  
 Insole: Strobel (PSC) + DST TPU Frame  
 Midsole: EVA-CM  
 Outsole: PRESA® HIK-06 / SuperGum  
 Last: (M) SHAR  
 (W) SHAR  
 Sizes: (M) 40-46 (½ sizes); 47-48 (whole sizes)  
 (W) 36-42 (½ sizes)  
 Weight: (M) 390g; 13.8 oz (1/2 pair size 42)  
 (W) 325g; 11.5oz (1/2 pair size 38)  
 Origin: Vietnam

### TECHNOLOGIES

# RIBELLE® CROSS 2 + RIBELLE® CROSS 2 WMN

63136/351 &amp; 352

## TECHNOLOGY · MATERIALS · CONSTRUCTION

**PRESA® Outsole** – PRESA® is SCARPA's proprietary outsole brand, born out of 80+ years of technical outsole design experience, to deliver the best traction solutions available. The outsole is molded in our exclusive SuperGum Eco rubber, with 3mm deep lugs designed with specific inclinations and angles to provide optimal traction, propulsion and braking, and features lateral grooves in the forefoot to enhance sole flex. The medial forefoot area features an edging zone, providing more rubber to surface contact under the big toe.

**SuperGum Rubber** – Exclusive to SCARPA, the SuperGum rubber compound was developed to provide equal or better slip resistance as compared to other high-friction rubbers but with vastly superior abrasion resistance. It was formulated to deliver high friction performance in both wet and dry conditions, but at the same time offers 3 times the abrasion resistance. SuperGum is the ideal rubber compound for SCARPA approach shoes.

**SCARPA Planet Friendly** – Our products are used to access the most wonderful and unspoiled landscapes on earth. We feel we must do our best to help preserve these landscapes for both current and future generations. The Planet Friendly designation appears on products designed to tread lighter on the planet, using eco-friendly resources and processes like recycled content materials, vegan friendly sourcing and plant-based plastics.

## ACTIVfit SYSTEM

**ACTIVfit Technology** – ACTIVfit is a construction system that employs different last shapes, material combinations and construction techniques to provide the optimal fit and performance for the intended activity.

**FIT:**  
SHAR last. Medium width heel and mid-foot fit, with a slightly tapered toe profile. The fit characteristic trends a little more towards precision, providing a confident feeling for navigating more technical terrain.
